International Cool Climate  
Chardonnay Celebration

## THE STORY OF THE i4C

*Summer 2009:* A handful of winemakers lounge in lawn chairs around a summer fire celebrating the success of one of their own. They gathered to raise a toast to the Ontario wine that had just triumphed at the 2009 Cellier Wine Awards in Montreal. In Canada's own version of Bottle Shock – the *Claystone Terrace Chardonnay 2005 from Le Clos Jordanne* in Niagara, won the prestigious award, surpassing Burgundian and California Chardonnays in a blind taste test.

The significance of this win wasn't lost on those celebrating, and the wheels were turning as the glasses were swirling. These winemakers have long believed that Chardonnay - one of the most widely cultivated varietals in Ontario – is deserving of a revival... It's resilient and refined. It can be steely or floral, complex or focused. It expresses terroir better than any other grape we grow. And when Chardonnay is complemented with a bit of cool - cool by altitude, by latitude, by marine influence or by climatic conditions – it can create magical wines that can easily refute the already waning "ABC – Anything but Chardonnay" movement.

The outcome of that impromptu backyard celebration is a much bigger one – the International Cool Climate Chardonnay Celebration (the "i4C"). Twenty-eight Ontario wineries started the not-for-profit group in April 2010, devoted to reinstating the dignity of Chardonnay. Over the past ten years, this group has invited premium cool climate Chardonnay producers from across the globe to join the cause, presenting some of the finest examples of cool climate Chardonnay in the world at the annual event. In this short time, the i4C has created a home for excellence in Chardonnay – a casual but in-depth weekend celebration of wine, food and learning, with an eye to reinvigorating a seriously cool wine.

## QUICK FACTS ABOUT THE i4C:

- 2022 is the 12<sup>th</sup> Anniversary of the International Cool Climate Chardonnay Celebration (i4C)
- **57** Ontario wineries are members of the i4C Association
- **Since 2011**
  - **226 +** wineries have participated
  - From **38** cool climate wine regions
  - **980** different cool climate Chardonnays and Blanc de Blancs have been poured
  - **16,000 +** consumers have celebrated in the heart of Ontario's wine country
- Past participating wineries include: **Louis Jadot, Drouhin, Taittinger, Champy, Laroche, Torres, Kistler, Ramey, Kumeu River, La Crema and Hamilton Russell**
- Industry support from all key stakeholder groups in the industry: **VQA Wines of Ontario and Wine Country Ontario, Wine Marketing Association of Ontario, Grape Growers of Ontario, CCOVI at Brock University, White Oaks Resort,** and numerous industry suppliers
- The i4C is not a competition; rather it is a celebration of exceptional cool climate wines
- The i4C mandate states that a minimum of 50% of the annual participants are from outside of Ontario to ensure a true exploration of the nuances of cool climate Chardonnay

## THE EVOLUTION OF THE i4C

After five years of celebrating the coolest grape on earth, the Chardonnistas decided it was time to invite some other "cool characters" to share the spotlight...

In 2016, the i4C launched its "i4C+" Campaign. Pinot Noir, Cabernet Franc and Gamay - varietals selected for their shared "coolness" - are now poured at select events throughout the weekend.

### TESTIMONIALS

"I'm very excited to be taking part in the 10th anniversary edition of the International Cool Climate Chardonnay Celebration in July 2020. Ontario's elegant, sculpted Chardonnays have already established a clear global style of their own and it will be fascinating to compare the latest vintage incarnations with the best of their international peers -- and all in the beautiful setting of Niagara." Andrew Jefford, *Columnist at Decanter and World of Fine Wine Magazine and Academic Advisor to the Wine Scholar Guild*

"i4C is the best thing that's happened to the Canadian wine industry since the introduction of the VQA appellation system in 1988" Tony Aspler, *Quench Magazine*

"Events like i4C (International Cool Climate Chardonnay Celebration) prove we have what it takes to make serious wines that can compete on a world scale." Wes Wiens, *Grape Growers of Ontario*

"To return to the International Cool Climate Conference is a great privilege. Ontario wines are the epitome of cool climate, which puts them right on the cutting edge. I'm anxious to taste the latest, as quality keeps surging, seemingly with every new vintage." Matt Kramer, *Wine Spectator Magazine*

"Over the course of 3 days, I tasted a slew of chardonnays and sparkling wines that blew me away. Our neighbors to the north are making some of the most vibrant wines in the New World. For the most part the chardonnays are wines with lift and elegance; wines with a vibrational core of crispness; wines that are mouthwatering and fresh." Karen MacNeil, *Author of "The Wine Bible"*

### WHY CHARDONNAY?

Chardonnay is one of the most widely produced white wines in Canada and the world; yet, there are a number of stereotypes about Chardonnay within the wine world and amongst consumers. For some, it is an over-planted grape and one that is most familiar because it has reached the status of having its own acronym amongst its detractors – ABC, or “Anything But Chardonnay”. Among its fans, there are a large number of wine drinkers that love it for its ability to inexpensively deliver ‘easy’ white wine; wine not requiring much thought on the part of the wine drinker. The descriptors for this easy Chardonnay are: ‘fat but bland fruit, low acid, an alcoholic and a slightly sweet finish.’

The i4C event is designed to celebrate the appreciation of and appeal of Chardonnay as a wine that comes from the noblest of white grapes. The clear distinction between the characteristics of cool and warm climate Chardonnay is not necessarily understood by most wine drinkers. Warm climate Chardonnay represents much of the wine sold of this variety; however, it does not always present an elegant and complex product. Cool climate Chardonnay, on the other hand, is celebrated for its myriad characteristics and notable versatility. The i4C event is designed to educate consumers so that they might distinguish between cool and warm climate Chardonnay.

The event will feature Chardonnays that are:

- From warmer climates, yet **‘Cool by Coastal Effect’** (including inland fresh water)
- From some hotter climates – areas that make Chardonnays that are **‘Cool by Continental Effect’** – really the flip-side to Coastal
- Some Chardonnays that are **‘Cool by Altitude’**
- Chardonnays that, like Burgundy, are **‘Cool by Latitude’**

What will unite all these wines at i4C is the fact that they are all ‘Cool by Attitude’. No matter where one grows Chardonnay, the attitude of the wine grower affects the grape. The management of the vineyards’ soils and the grapevine canopy, the picking date, the handling in the winery and cellar can all contribute to the retention of freshness of acidity, and that minerality and dense yet silky texture that mark all of the world’s truly great Chardonnay wines.
